PARK IM GRÜNEN

A photograph of a red carpet event at Gurten Park. A long, light-colored carpet runs down the center, flanked by red velvet ropes and gold stanchions. In the background, a large, ornate building with a prominent onion dome is visible. The scene is illuminated by warm, golden light, suggesting sunset or sunrise. A large banner with various logos is positioned at the end of the carpet.

Prices apply for up to 480 people. Prices available on request for above that number.

During extended operating times, the Gurten funicular runs every 15 minutes. Please confirm your chosen extended operating period up to four weeks before your event.

## EVENT ORGANIZATION

We provide an initial quotation free of charge. The Gurten offers a 30-minute guided tour and a 60-minute consultation free of charge.

The Gurten arranges initial contact with our partners. The event organizer can then discuss the details with them. Additional consulting and organizational expenses will be charged at 80.– per hour.

## PS. A GURTEN EVENT IS A SUSTAINABLE EVENT!

The Gurten – Park im Grünen actively promotes sustainability practices. That's why the company has been Swisstainable-certified since 2022 and also why the green areas of the Gurten have been recognized by the Nature and Economy Foundation since 2017.

Adopting a responsible approach to nature also means being consistent. Take a look at some examples that demonstrate our commitment to sustainability:

### IMPORTING BY SEA INSTEAD OF AIR

Importing vegetables by plane generates one to ten times more CO<sub>2</sub> emissions than importing by boat. In order to reduce CO<sub>2</sub> emissions, as of 2020, the Gurten – Park im Grünen no longer uses produce that has been imported by plane.

### GRAY WATER

The average Swiss citizen uses about 45 liters of drinking water every day just to flush the toilet. For some of its toilet facilities, the Gurten – Park im Grünen uses collected rainwater, thereby saving a considerable amount of drinking water.

### MINIMIZING FOOD WASTE

Thanks to improved purchasing processes, more efficient resource management and adapted services, the Gurten – Park im Grünen was able to reduce food waste this year by 47 % compared to last year. We now offer take-out buffet menu boxes so that guests can take any uneaten food home with them.

### NO FOSSIL FUELS

The Gurten – Park im Grünen does not purchase fruit and vegetables grown in greenhouses heated by fossil fuels.

### RENEWABLE ENERGY SOURCES

The Gurten – Park im Grünen uses renewable energy sources. The electricity for the entire area is drawn entirely from Swiss hydropower.

### HEATING WITH WOOD CHIPS

The Gurten – Park im Grünen heats its buildings by means of wood chips. Burning wood releases the same amount of CO<sub>2</sub> as is removed from the atmosphere by trees as they grow. Wood energy is therefore CO<sub>2</sub>-neutral.
